

## **A Walk in Summer Rain**

### **Intro:**

The sky whispers softly, the earth breathes a new,  
A summer rain falls, a warm rendezvous.  
Hand in hand, we wander through the tender refrain,  
Lost in the rhythm of a love-soaked lane.

### **Strophe 1:**

The sun hides gently behind silver veils,  
Raindrops dance on leaves, painting their trails.  
Your smile, a beacon in this hazy delight,  
Guides me through shadows, into the light.

### **Strophe 2:**

Barefoot on cobblestones, laughter so free,  
The scent of rain mingles with you and me.  
Each step a memory, each touch a spark,  
Brightening the day as it nears the dark.

### **Strophe 3:**

Your hair shines gold under soft twilight,  
Raindrops like diamonds, catching the light.  
The world fades away; it's just us two,  
Hearts beating in rhythm, so pure, so true

### **Chorus:**

Oh, a walk in the summer rain,  
Every drop whispers your name.  
Sunshine peeks through the gray,  
Warming our love as we drift away.  
In your arms, I find my peace,  
In this rain, our joys never cease.

### **Strophe 4:**

The breeze hums low, the world feels still,  
Time bends gently, bends to our will.  
Every laugh, every kiss we claim,  
Echoes forever in the summer rain.

### **Strophe 5:**

The clouds break open, a sunbeam falls,  
Wrapping us softly in its golden calls.  
The rain retreats, but the magic stays,  
Our love grows stronger in these endless days.

### **Chorus (Repeat):**

Oh, a walk in the summer rain,  
Every drop whispers your name.  
Sunshine peeks through the gray,  
Warming our love as we drift away.  
In your arms, I find my peace,  
In this rain, our joys never cease.

### **Bridge:**

Through the rain, through the sun, we'll always remain,  
Bound together, through joy and through pain.  
The rain's gentle touch, the sun's warm embrace,  
Are mere reflections of this love we chase.

### **Outro:**

As the rain fades softly, we linger, we stay,  
The warmth of the sun guides our way.  
A walk in the summer rain, love's sweet refrain,  
Forever we'll dance in its gentle domain.
